PERSONAL SUMMARY

Product & Platform Operations Specialist with experience in workflow optimisation, process standardisation, stakeholder coordination, and AI-assisted process improvement across platform operations, EdTech, financial services, and digital service environments. Lean Six Sigma Green Belt certified, with a track record of reducing manual coordination, improving escalation workflows, and building repeatable operational systems across fast-paced, cross-functional teams.

SKILLS

- **Product & Operations:** Workflow Design, Process Mapping, Operational Excellence, Product Implementation, Requirements Gathering, SOP Development, Escalation Design, User Enablement, Change Implementation
- **Languages:** Mandarin (Native), English (Fluent), Spanish (B2 – Professional)
- **Data & AI Tools:** AI-assisted Workflow Design, Human-in-the-loop Systems, Automation Logic, Operational Reporting, Funnel Analysis, Excel, SQL, Tableau, Google Apps Script
- **Cross-functional Delivery:** Stakeholder Management, XFN Collaboration, R&D / Business Coordination, Documentation

WORK EXPERIENCE

Sep 2024 – Aug 2025 LE LYS TW (D2C E-Commerce / EdTech) México (Remote)

Product & GTM Operations Manager (Part-time)

- Mapped and redesigned onboarding and CRM workflows for a remote language-learning business, reducing manual coordination time by 40% through process standardisation, automation, and clearer ownership across students, teachers, and operations.
- Analysed conversion funnels and learner behaviour to identify onboarding friction points, improving lead-to-paid conversion by ~30%.
- Developed cross-channel reporting workflows to improve visibility into marketing and enrollment performance, supporting 20% monthly revenue growth.

Oct 2021 – Dec 2023 AceKing Group (GameTech / Online Poker) Taiwan

LATAM Customer Service & Platform Operations Specialist (Full-time)

- Redesigned moderation classification logic for culturally ambiguous LATAM Spanish-language edge cases, improving enforcement consistency and reducing user appeals by 25%.
- Investigated systemic refund-abuse behaviours tied to platform gifting mechanics across LATAM markets, identifying coordinated behavioural and device-level risk patterns that informed automated detection workflows and reduced abuse rates by 35%.
- Redesigned ticket triage and escalation workflows during a high-volume platform incident, introducing severity-based prioritisation logic, clearer escalation paths, and repeatable response procedures that reduced average response time by 40% and cut ticket backlog by over 50% within one week.
- Built onboarding workflows for rapidly scaling LATAM operations teams by introducing a hybrid training model that reduced ramp-up time by 50% while improving QA consistency.

Feb 2019 – Sep 2021 Honesty Insurance Brokers (Finance and insurance) Taiwan

Operations & Client Success Associate (Part-time)

- Managed insurance policy operations and underwriting coordination by translating complex requirements into standardised client workflows.
- Built long-term client trust through lifecycle management and responsive support, contributing to a referral-driven portfolio where 60%+ of clients originated from existing customer networks.

Project Experience

Apr 2025 – Present **Lilai Ireland (B2C Digital Services / EdTech)** **Taiwan (Remote)**
Co-Founder & Operations Lead (Side Project)

- Designed and embedded 0→1 onboarding and operations workflows, including lead intake, consultation booking, follow-up systems, and feedback triage, reducing manual coordination time by ~40% and creating repeatable processes for a small cross-functional team.
- Designed value-added service bundles based on user onboarding friction and student needs, contributing to ~350% business growth within one quarter.
- Identified trust and job-search uncertainty as primary onboarding friction points for students relocating to Ireland and designed educational onboarding assets and consultation funnels that achieved an 80%+ conversion rate.
- Developed an AI-assisted feedback triage workflow to automate qualitative user inquiry processing, recovering ~10 operational hours per week.

Apr 2026 – Jul 2026 **Independent AI Product & Operations Case Study** **Ireland**
Project Lead & Product Designer

- Developed a six-category Decision Blocker Taxonomy and mapped each category to a four-level escalation framework (L1–L4), defining when AI should respond, clarify, or escalate.
- Built and deployed a functional HTML prototype with a Google Apps Script backend, supporting branching validation flows, two-stage email logic, live lead capture, and structured data storage in Google Sheets.
- Designed a distrust-type classification gate and confidence-sensitive routing logic to prevent distinct trust states from triggering the same AI response.

Apr 2025 – Jul 2025 **SOLUS Lighting (Retail SME / E-Commerce)** **Ireland**
Digital Content Researcher & Analyst (Company Project for Dissertation)

- Conducted market research and AI content performance analysis for an Irish retail SME using Excel, seeing a projected ~2.5x increase in engagement rate through iterative content testing.
- Developed a structured AI-assisted content workflow (A.I.G.E.N.I.U.S.) to streamline digital asset production and accelerate GTM execution, demonstrating an estimated ~40% improvement in production efficiency.

EDUCATION

Sep 2024 – Aug 2025 **Trinity College Dublin (Business School)** **Ireland**
MSc Digital Marketing Strategy

- Master's Thesis (Company Project): Researched how AI-generated content influences consumer engagement and brand perception, translating insights into practical GTM and content strategy recommendations for SOLUS Lighting.

Sep 2016 – Aug 2020 **Fu Jen Catholic University (Pontifical University)** **Taiwan**
BA Spanish Language and Culture
